

Step-by-Step Instructions for Group Assignment

International Cryptographic Institute: Advancing
Cryptography Education and Research

Lecturer/Tutor: Dr. Farshid Keivanian

Instructions:

1. Join a Group:

- Form a group of 4 students within the first two weeks of class. Each group will work together for the semester.

2. Download Assignment Documents:

- Access and download the detailed group assignment specifications from the provided documents:
 - Group Assignment Cover Sheet 2024.docx
 - HS1021 Group Assignment T1 2024.pdf
 - OPTION 1.pdf
 - OPTION 2.pdf
 - OPTION 3.pdf
 - OPTION 4.pdf

3. Review Requirements:

- Ensure submission includes a completed cover sheet with all contributing group members listed.
- Use Microsoft Word format for the report.
- Correctly reference all sources using Holmes Institute Adapted Harvard Referencing.
- Submit documents from a desktop or laptop, not from a smartphone/tablet or via the Blackboard App.

4. Complete the Group Assignment:

- Follow the assignment guidelines and address both challenges within your selected option. Each group must select one of the four provided options.

5. Submit the Group Assignment:

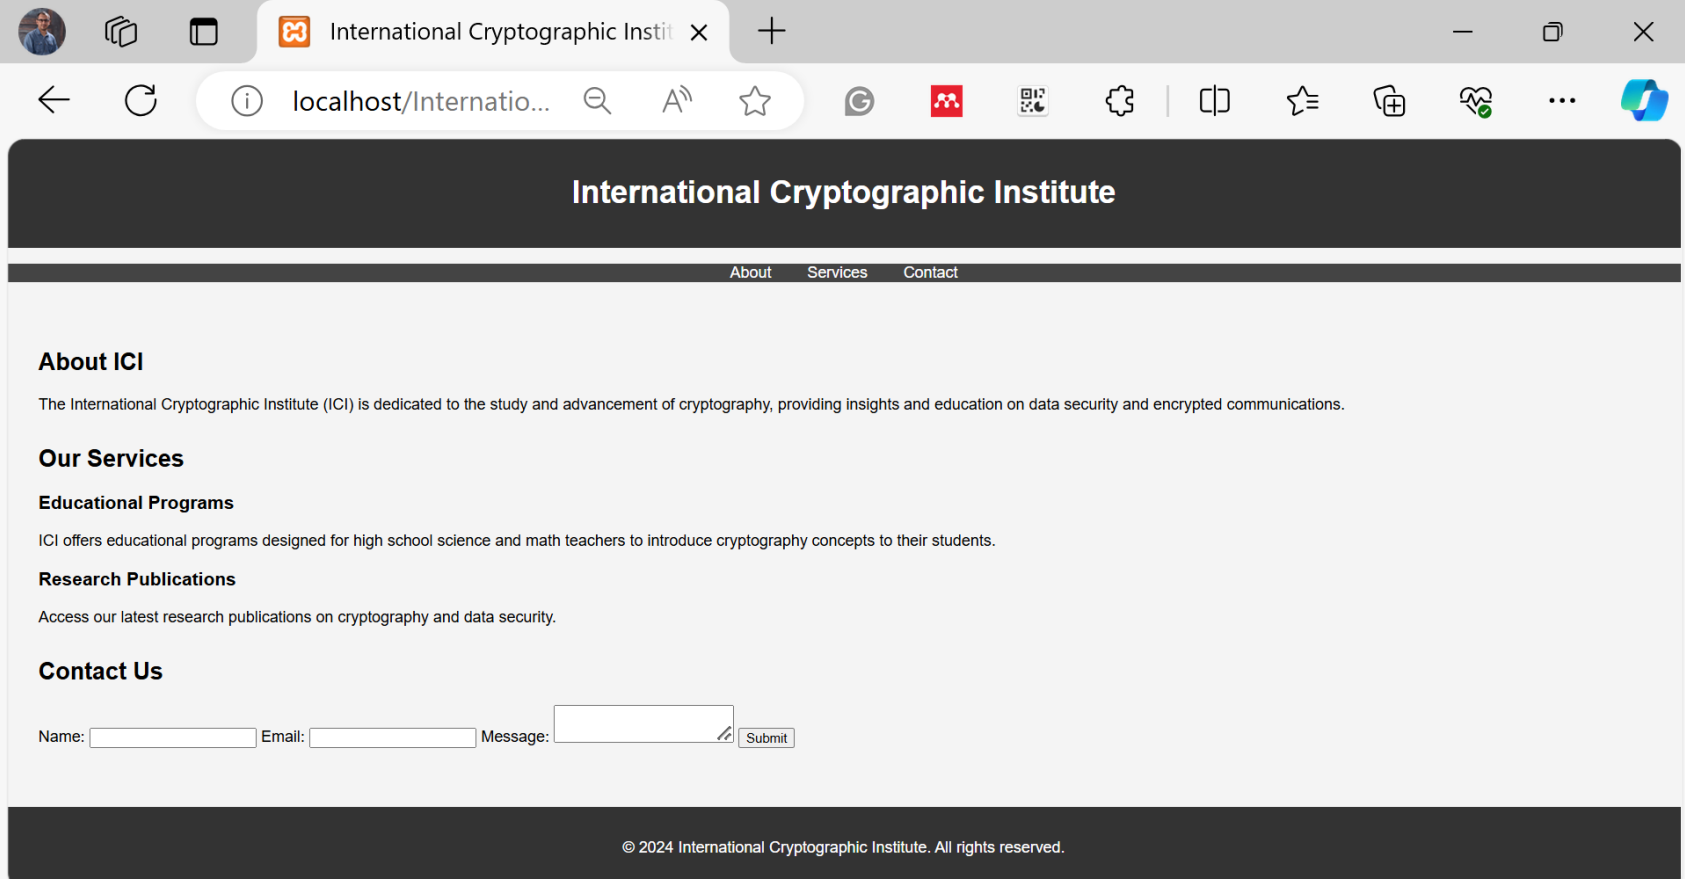

- Submit the completed group assignment and cover sheet to the submission link on Blackboard by the due date and time.

Option 3: Challenge 1 - International Cryptographic Institute (ICI)

HTML and CSS Code Example:

HTML (index.html): International Cryptographic Institute: Advancing
Cryptography Education and Research.html

Option 3: Challenge 1 - International Cryptographic Institute (ICI)

HTML and CSS Code Example:

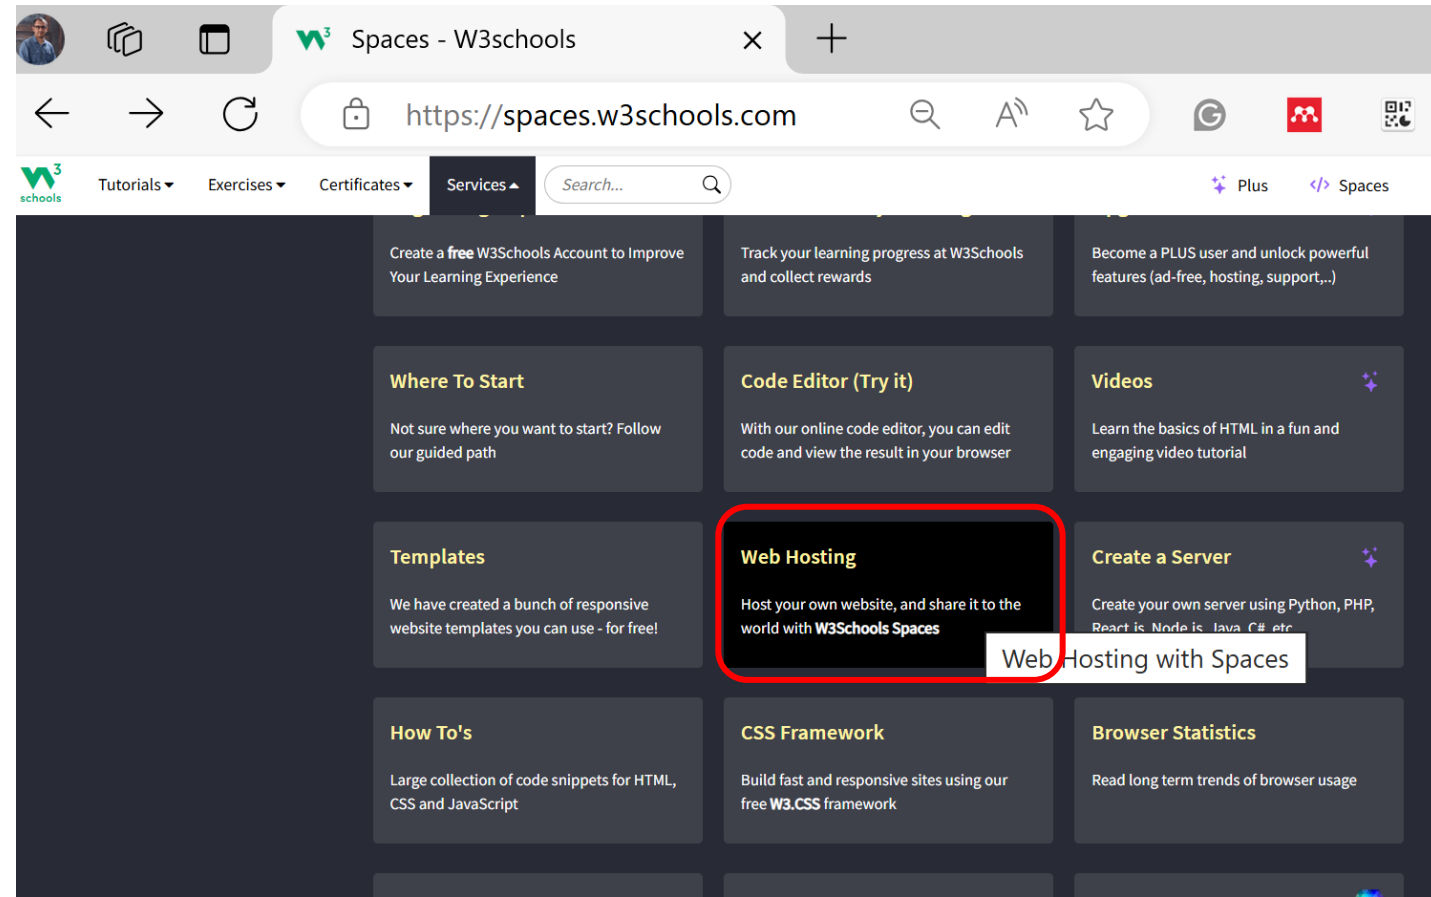

HTML (index.html): International Cryptographic Institute: Advancing
Cryptography Education and Research.html

Option 3: Challenge 1 - International Cryptographic Institute (ICI)

HTML and CSS Code Example:

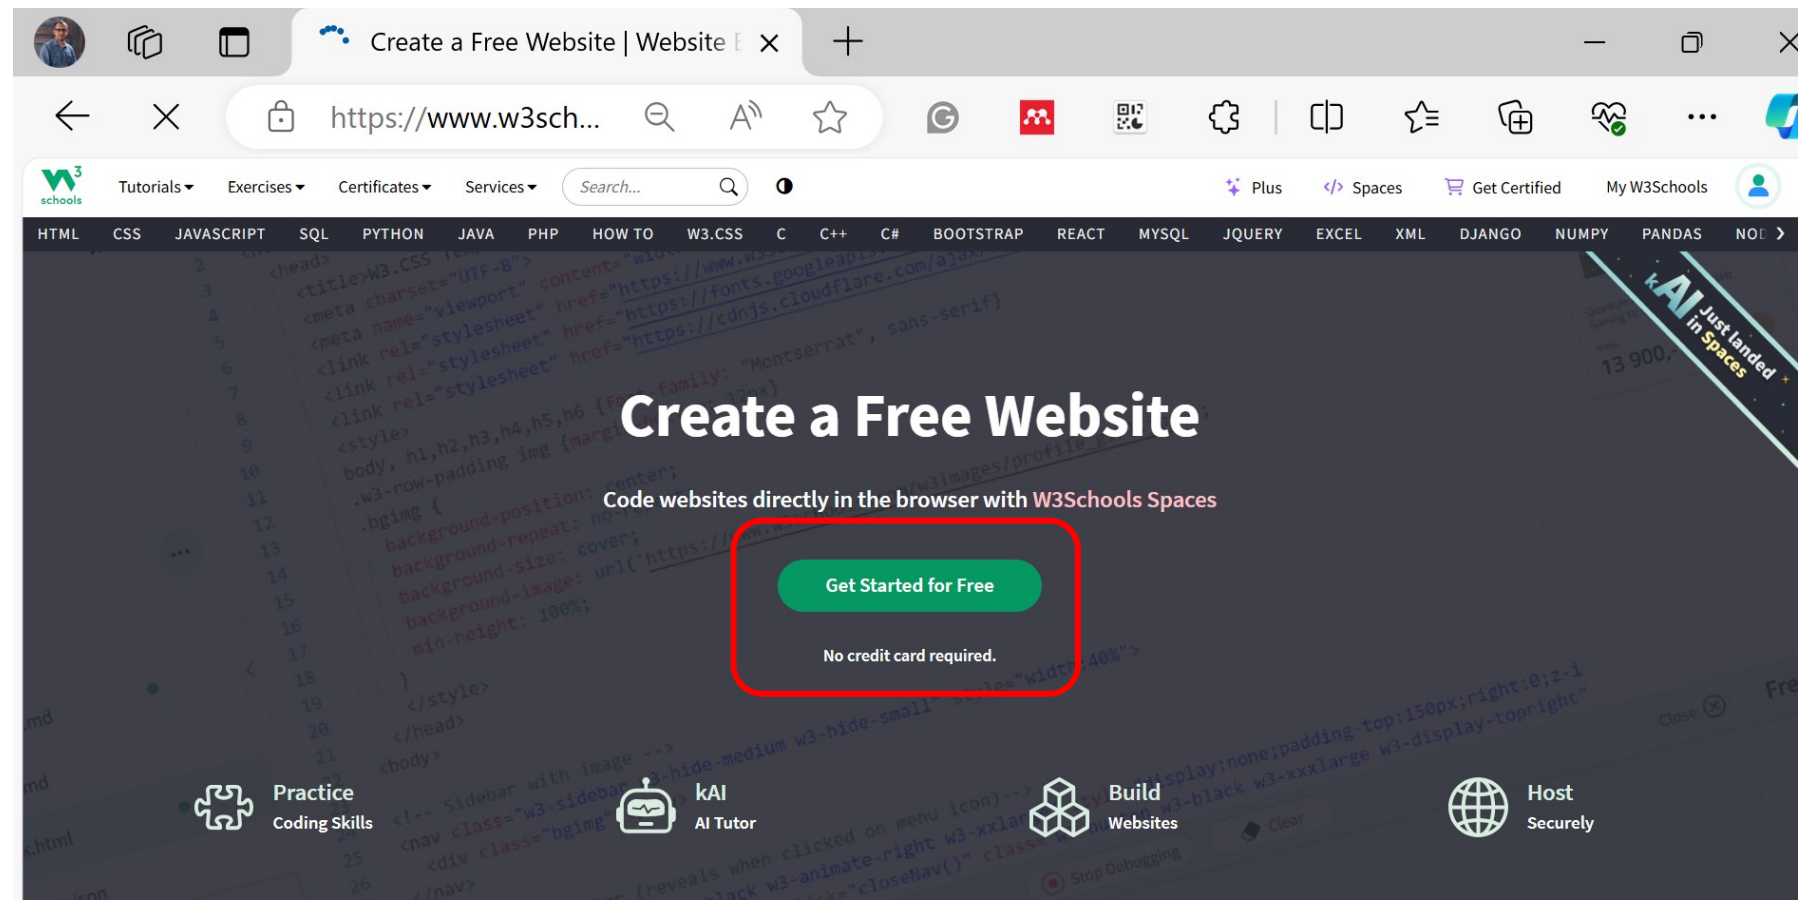

HTML (index.html): International Cryptographic Institute: Advancing
Cryptography Education and Research.html

Option 3: Challenge 1 - International Cryptographic Institute (ICI)

Hello developer!

This project contains a basic HTML structure to get you started. Check our [tutorials for frontend development](#) to learn the basics of [HTML](#) and [CSS](#).

What's next?

Build your project however you like using HTML, CSS and JavaScript.

Use these four files as your starting point:

- README.md:** This is the file that you are reading now. You can change the text in this file to leave information to others about your website - or delete it.
- index.html:** This is the default page for your space, where you write HTML, the standard markup language for creating web pages.
- styles.css:** Use the CSS file to style your content and change the look of your space with beautiful colors, fonts and much more.
- scripts.js:** Use this file to make your website dynamic and interactive with JavaScript.

Note: The **styles.css** and **scripts.js** files link into the **index.html** file so that they are all connected.

About ICI

The International Cryptographic Institute (ICI) is dedicated to the study and advancement of cryptography, providing insights and education on data security and encrypted communications.

Our Services

Educational Programs

ICI offers educational programs designed for high school science and math teachers to introduce cryptography concepts to their students.

Research Publications

Access our latest research publications on cryptography and data security.
